PROFESSIONAL SUMMARY

A disciplined and passionate supportive educator with extensive experience in teaching Polymer Engineering, Science, Chemistry and Elementary Studies. Known for fostering a positive, engaging classroom environment, I make learning enjoyable and meaningful, helping students reach their full potential. With a diverse educational background and expertise in mentoring, curriculum development, and energy and safety, I am committed to academic excellence and continuous growth. My skills in project management, technical sales, and leadership, along with my dedication to collaboration and volunteering, enable me to support students' broader professional goals and personal development.
